Yes. Thank you. You all probably know this, but the creek that flows under Hwy. N is a warm water creek. It only becomes cold where it intersects with the springs that comes out of the salvation army property .

After looking at the map, I have to assume you mean Hwy N, not H, correct? We located the Salvation Army Camp on Hwy N a little ways south of the creek. Do I have this right?  
Thanks,

Mr. Hoffmeyer,

We received the comment you submitted using the Stream Usage Survey on the Web. In reviewing your comment, I noticed you did not include locational information. You state, "I fish the entire stream from".... Could you send me the rest of your sentence? Please give road crossings or "landmarks" I can find on a topographic map.

Thanks for your comment and help,
